1. The following is an examiner's statement of reasons for allowance: The primary reason for allowance is, as stated by applicant on page 6 in the third full paragraph, the fact that the "object of *Miyashita* is to make a label on a disk readable while the disk is rotating at high speed . . . The only way to read the label while it is rotating is to 'freeze' it or make it appear to be stationary with no movement." Also, as stated in the third paragraph on page 6, the applied prior art provides no support "to make the cover 'translucent' since that property would obscure the text on the label". The definition of translucent is based on the publication provide in the remarks received September 7, 2005.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
